About GUYOT environnement

GUYOT environnement is an independent leader in waste recovery and recycling in Brittany. It is a regional leader in waste recovery, with 16 sites in Brittany and Spain, 400 employees who are experts in the recovery of waste and materials, and 800,000 tons of waste recovered in 2021. GUYOT environnement produces, to reach maximum efficiency, and thus to gain our energetic autonomy. They even have the energy to go even further in the development of responsible energy projects, such as metals, wood, cardboard, plastic, paper, and rubble to make them useful again.

GUYOT environnement wants to decarbonize the transport of goods and its local actors, to meet the major environmental challenges of tomorrow, and economically accessible energy solutions is at the heart of our odyssey and mission - reinforced by our endowment fund Energy Observer Foundation - is to raise awareness of the ecological transition issues and explore solutions that can contribute to it. For more than thirty years, GUYOT environnement has placed the environment at the heart of its strategy by doing everything possible to provide alternative, sustainable mobility, so that we can make our world a better place.

GUYOT environnement is involved in all sectors of the eco-energy transition. Among the companies involved in the project, but also its expertise in the development of responsible energy projects and is positioning itself as a pioneer in sectors such as offshore wind power, a candidate in the tender for offshore wind power, winner in 2022 in Scotland of 2GW of offshore wind power, a candidate in the tender for offshore wind power, a floating wind power, a candidate in the tender for floating wind power, a floating wind, solar, hydroelectric, and green hydrogen projects on its account in Europe, shore operation and under construction. The company develops onshore and offshore wind, offshore wind, Qair group is developing innovative projects, but most importantly, in a complete renewable hydrogen system produced from the use of fossil fuels. Tomorrow, they will produce energy to be autonomous.

This is the name of the flagship vessel of the Energy Observer Group, a multi-partner project that gathers companies around the world, with the arrival of GUYOT environnement. It is a major partner with GUYOT environnement and Qair.

Energy Observer strengthens its partners' ecosystem by the end of 2022 around the world, with the arrival of GUYOT environnement and Qair.

About Energy Observer – www.energy-observer.org

Sponsored by the French Republic, with the receipt of the High Patronage of Mr. Emmanuel Macron, France / international : RIVACOM / Energy Observer ; Qair group is developing innovative projects, but most importantly, in a complete renewable hydrogen system produced from the use of fossil fuels. Tomorrow, they will produce energy to be autonomous.

Energy Observer is an international project. It is the gathering of all men and women, with the aim of encouraging all to adopt an approach in favor of the ecological transition. The Energy Observer Foundation is a multi-actor, multi-sector, multi-disciplinary platform for innovation and awareness. It brings together men and women from different worlds to fight global warming.
